

Is your budget tight this month after the holidays?

You aren't alone. Consumers typically see a tightening of finances in January as they pay off December spending, but in 2022, this feels more restricted than usual with a global pandemic and rising inflation. If your credit card balances are high or your account balances a little low, we can help you consolidate your debt.

If you are feeling pinched financially, we can help you consolidate your debt with a Consolidation Loan from KPCU. Move all of your expenses into one loan with a low interest rate and recover from your holiday spending quickly.

Kingsport Press Credit Union has consolidation loans for amounts

**up to \$10,000
with 60-month terms.**

Contact your loan officer today to get started.
